

A Medline Exclusive

Glove smarter with SmartBox™

Push exam gloves up to keep waste and touchpoints down.

PPE waste is climbing at an alarming rate. It's time to make every glove count. Our SensiCare® Silk nitrile exam gloves feature the SmartBox design—a smart enhancement to glove packaging that automatically propels gloves toward the box opening.

Make every glove count

44% less box contamination*

Strengthen infection prevention protocols with reduced touchpoints inside the box.

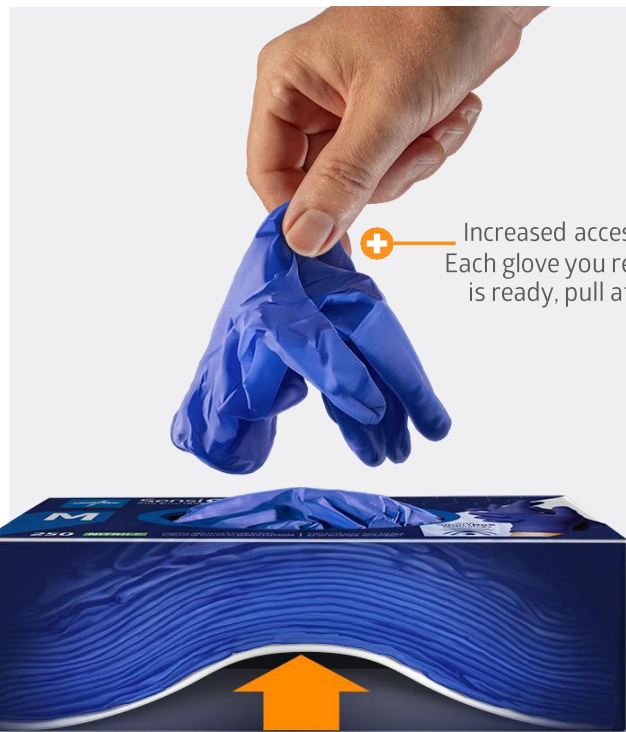

38% waste reduction*

Control costs by keeping medical gloves off the floor and in the box where they belong.

A positive environmental impact

Decrease PPE waste and environmental contamination by addressing the issue at its source.

Increased accessibility. Each glove you reach for is ready, pull after pull

No change to the shape or size of the glove box, so it can be used in existing holders

SensiCare® Silk Nitrile Exam Gloves with SmartBox™

Our glove boxes may look the same on the outside, but it's what's on the inside that counts.

- Dark Blue powder-free gloves have a soft and comfortable feel while providing outstanding tactile sensitivity for touch perception
- Textured fingertips for enhanced grip
- Color-coded sizing helps you quickly identify the right size every time
- Meets both ASTM D6978-05 and USP 800 Personal Protection Equipment requirement for use of chemotherapy gloves when handling hazardous drugs**
