Skin Care Essentials Supporting Employee and Customer Wellbeing

More businesses are enhancing hand hygiene with our advanced skin health formulations, featuring premium soaps, hand sanitizers, and innovative dispensers designed for maximum efficiency and easy maintenance. The enMotion® Skin Care Collection provides a complete hand hygiene system—from hand wash to hand dry—backed by smart IoT monitoring (KOLO®) for a seamless and reliable experience.

enMotion® Soaps

Elevating Hygiene with a Complete Hand Hygiene System

Our enMotion® soap formulas are engineered to gently remove dirt and germs while supporting your skin's natural moisture barrier for healthy-feeling skin.

92%
of enMotion®
Soap customers
are satisfied.²

GENTLE AND EFFECTIVE

Enriched with moisturizers like aloe and glycerin, our effective and gentle rich-foaming formulas can help maintain skin health.

MINDFULLY SELECTED INGREDIENTS

Designed for frequent use, our soap formulas use only essential ingredients to gently wash away dirt and germs, while leaving skin feeling clean and refreshed.

EFFICIENT & SUSTAINABLE REFILLS

Helping to minimize waste, soap refill bottles dispense 99% or more of the product.¹ Plus, they're 100% recyclable³, with no need to separate parts.

¹GP PRO Proprietary Research: CSP-21-5134

²GP PRO Proprietary Research: CPT-22-5407

³This product is recyclable where facilities exist. Check with your local recycling program.

enMotion®
refills are **engineered to dispense at least 99% of foam** product before replacement is needed.¹

PRODUCT SPOTLIGHT

enMotion® Antimicrobial Soap

Our advanced antimicrobial soap formula is enriched with a blend of green tea and acai to combat oxidative stress and environmental damage. Oat extract complements antioxidant benefits with soothing properties, providing moisturizing effects and barrier support. This dermatologist-tested formula is hypoallergenic and dye and fragrance free, using FDA-approved benzalkonium chloride (BZK), a trusted antimicrobial agent recognized for its safety and effectiveness.

enMotion® Hand Sanitizers

Advanced Formulations, Gentle on Your Skin

Hand sanitizer formulas from enMotion® contain enhanced soothing and moisturizing ingredients to be gentle on the skin while killing 99.99% of common harmful germs that may cause illness.¹

86%

from germs.³

CLINICALLY TESTED FORMULATIONS

Our advanced, dermatologist-tested formulas are clinically proven to improve skin hydration in just two days.² Made with high-quality ethyl alcohol and manufactured according to FDA safety and quality standards.

GENTLE ON SKIN

Enhanced with soothing ingredients like bisabolol (chamomile), oat, green tea, acai, and Vitamin B5, our sanitizers are kind to skin, even with frequent use.

SUSTAINABLE DISPENSING

Refill bottles are designed to dispense 99% or more of their product—and they're easy to recycle⁴, with no separation of parts required.

 **BISABOLOL** |
  **HEXAPEPTIDE-49** |
  **BOTANICAL BLEND**

PRODUCT SPOTLIGHT

enMotion® High-Frequency Hand Sanitizer

This formula leverages bisabolol for immediate soothing effects, along with acetyl hexapeptide-49 to help strengthen the skin's barrier and resilience over time—for long-term barrier support. This can help calm skin and keep hands soft, and the formula is enriched with a botanical blend of over six moisturizing ingredients. Clinically proven to enhance skin hydration in just two days, it is gentler than traditional soap and water.²

enMotion® Dispenser Technology

A Legacy of Innovation and Reliability

Our Skin Care Collection carries forward the enMotion® tradition of touchless-hygienic dispensing, one of the early pioneers in the field. Our complete hand hygiene system—from hand wash to hand dry—is enhanced by smart IoT monitoring (KOLO®), ensuring efficiency and dependability at every step.

One-at-a-time dispensing can reduce towel usage by at least 31%²

LIFETIME WARRANTY

Renowned for performance and durability, our expertly engineered soap & sanitizer and paper towel dispensers are among the most reliable in the industry.

EASY MAINTENANCE

enMotion® soap & sanitizer dispensers take 40% less time to load than the average dispenser.¹ Features like the “maintenance pause button” simplify tasks like cleaning countertops. They’re also officially certified by the ISSA Cleaning Times Validation Program (PRO-23-938702).

EXTENDED SERVICE, MINIMAL DOWNTIME

Designed to be 99% jam-free, our towel dispensers feature high-capacity rolls to minimize changeouts. Additionally, soap & sanitizer dispensers deliver 99% or more of their product, aiding cost efficiency.

TOUCHLESS HYGIENE

Motion-activated, enclosed dispenser designs ensure a touch-free, hygienic experience.

LASTING EFFICIENCY

Every dispenser in the enMotion line offers a minimum 4.5 year battery life, and select towel dispenser models featuring ECON Mode can further extend battery life to 5 years.

¹enMotion® Soap & Sanitizer dispenser vs. the ISSA Benchmark of 35 seconds (ISSA Cleaning Times Validation, 1/30/2023: PRO-23-938702)
